Weather Advisory

Strong winds affecting New Britain Services

Dear Valued Customer,

The PNG National Weather Service has continued to renew its strong-wind warning for Vitiaz and Dampier Straits and waters surrounding West and East New Britain.

Consort is closely monitoring conditions and reviewing services to affected destinations, including Kimbe and Rabaul.

While services have not been generally suspended, some schedules may be adjusted or delayed where necessary to protect our vessels, crews and cargo.

Customers affected by any confirmed schedule changes will be advised directly.

Thank you for your patience and understanding.

Yours sincerely,

Consort Express Lines
