Customer Advisory

2025 Across Wharf Charges (AWC) Update

Dear Valued Customers,

We review our Across Wharf Charges (AWC) in December for application from 1 January. We are unable to issue revised AWCs at this time as we are still waiting for some of our third-party vendors to advise of changes to their own rates in 2025.

As such, Consort will maintain the [current AWC](#) until we have visibility on all third-party vendor charges.

We apologise for the inconvenience caused as we appreciate that our customers' business continuity relies on the receipt of timely advice. Once Consort has been guided on updated third-party rates, we will review and advise the market of any changes to our own AWC accordingly.

We thank you for your continued support and understanding.

Please do not hesitate to contact your local Agency representative directly if you have any further questions.

Kind regards,

Consort Express Lines
