Ref No. CEL2602

Customer Advisory

Late Delivery Fee and Kimbe Security Surcharge

Dear Valued Customers,

This advisory outlines the following operational updates, **effective 23 February 2026**.

1. Revision to Cargo Reveal Cut-Off across all ports and Introduction of Late Delivery Fee

To provide greater flexibility to shippers while maintaining smooth vessel operations, CEL will extend the cargo reveal cut-off to 1700 hours on the day prior to vessel arrival. Where the cut-off is not met, Consort may accept cargo up to vessel arrival. In such cases, a Late Delivery (LD) Fee will apply to reflect the additional handling and coordination required.

Late Delivery Fee*	
Per TEU	PGK 1,000
Per FEU	PGK 2,000
Per RT	PGK 55

***Applicability: Cargo received after the cargo reveal cut-off and prior to vessel arrival.**

Where cargo is unable to be presented prior to vessel arrival, requests may be escalated on an exception basis. Any acceptance of cargo after vessel arrival will be subject to General Manager approval.

2. Introduction of Security Surcharge – Kimbe ONLY

To support safe and secure Kimbe service, Consort has implemented enhanced security measures, including security personnel and additional risk-mitigation arrangements. As a result, a Security Surcharge will be applied to Kimbe-bound cargo to recover the actual costs incurred in maintaining these security standards, **effective 23 February 2026**.

Security Surcharge (Kimbe)	
Per TEU	PGK 250
Per FEU	PGK 500
Per RT	PGK 14

These measures balance operational flexibility with the cost recovery required to maintain safe and reliable services.
